

# VMS – LPR Module

1.Vehicle registration – Vehicle No. , Check in, Name, Mobile number, Block/Unit no, Purpose of visit, Remarks, Company, vehicle image – all field editable and also we have to call this api <http://129.126.198.5/lpr.html> to get Vehicle No. and image

And add extra column for visitor contact number and also this field Motorcycle/Non vehicle Adhoc

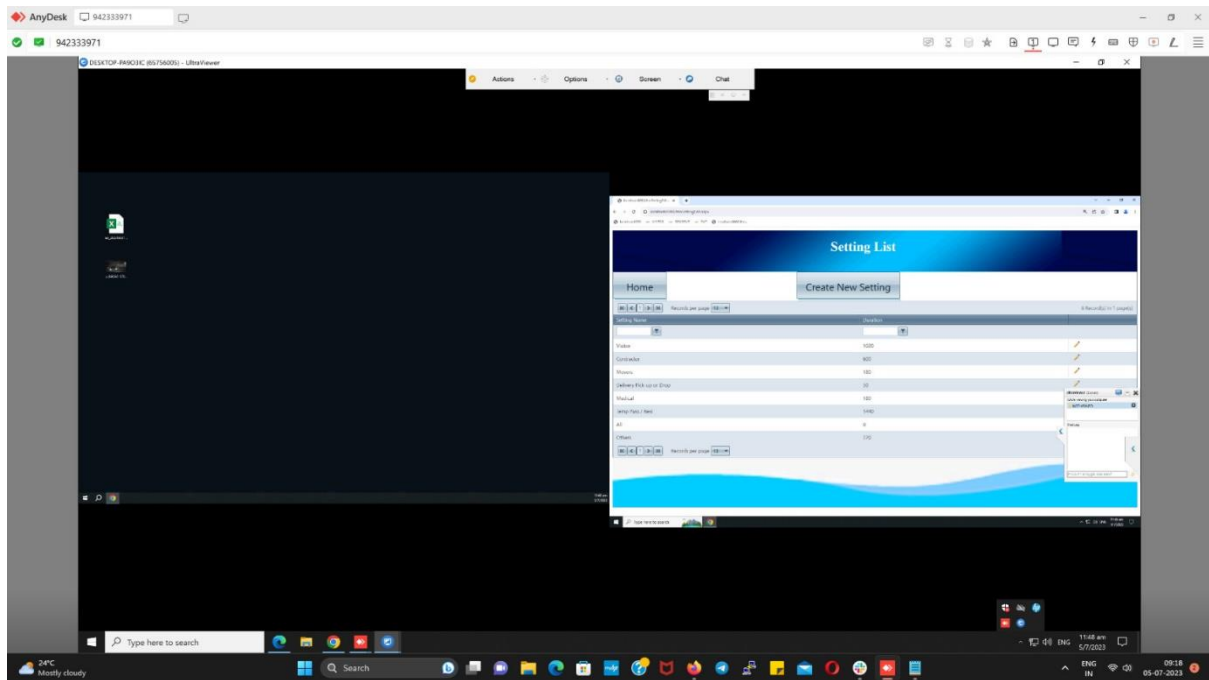

The screenshot shows a Windows desktop environment. A web browser window is open, displaying a 'VEHICLE LIVE REPORT' application. The application has a blue header and two main data tables. The first table, titled 'VEHICLE LIVE REPORT', has a red background and lists vehicles with details such as Name, Plate, and Status. The second table, also titled 'VEHICLE LIVE REPORT', has a green background and lists vehicles with details such as Name, Plate, and Status. The desktop also shows a taskbar with various icons and a system tray with the date and time.

Name	Plate	Status	Color
